STARL METAVERSE 即将 MINT **WARP NEXUS** 即将 MINT **WYRM BYTES**

Physics Altering Lifeforms (PALs) have made their way to the MMO, Warp Nexus in the STARL Metaverse. PALs are not just NFTs, they're your guides and energy sources to explore Warp Nexus!

Owning a PAL will allow you to access all Warp Nexus areas forever without paying any other fee. It is very rare for an online game to let people buy unlimited play, we see this as our way of thanking people for helping fund the project's development.

Once bought, they become your original and unique PAL within the game of Warp Nexus. You can fly missions and accrue daily rewards from PAL ownership as they guide your ship. If another pilot wants to fly that doesn't own their own PAL, a default one will be assigned from the system and will not gain the same evolutionary advantages of game missions like your fully customizable one will.

Each level provides either a visual or cosmetic improvement to your character or ship, or unlocks a new PAL persona. All piloted spacecraft MUST have a PAL uploaded to LAUNCH. The PAL levels through missions gaining XP in Warp Nexus. When a PAL reaches a new level, it unlocks its unique special bonus that benefits the owner of the PAL.
